The Catholic University of Valencia (UCV) has quickly become an incomparable center of creativity, radiating knowledge for the good of society, and providing its 11,000 undergraduate, 4,500 graduate, and 400 international students with a university experience of the absolute highest quality. By uniting faith and reason, the UCV seeks to facilitate a strong college community through an atmosphere of academic friendship, while also providing a highly personalized experience for each student.

Professors at the UCV are first and foremost, “maestros” or teachers. Across all schools/faculties and academic disciplines, professors engage students in vibrant dialogues, ensuring that each student develops her/his talents and finds the necessary skills for future success, both professionally and in life.

Exciting academic and professional opportunities abound at the UCV. Students may pursue a degree in any one of the University’s ten schools/faculties and nearly 30 majors. These include: The School of Science, Psychology and Education; The Faculty of Physical Activity and Sport Science; The School of Physiotherapy and Podiatry; The School of Philosophy, Anthropology and Social Work; The Faculty of Veterinary and Experimental Sciences (including Marine Science); The Faculty of Economics and Business; The Faculty of Medicine and Dentistry; The School of Law; The Faculty of Canon Law; and The School of Nursing.

Learning extends far beyond the classroom at UCV too. Students have access to a rich variety of community service opportunities, professional internships, clubs, associations, and intercollegiate and intramural sports.
Valencia is your destination.

Welcome to Valencia, a dream-like city that’s actually real! In a single city, you will be able to experience both history and modernity while savoring the delights of a true Mediterranean lifestyle. Today, Valencia is Spain’s third largest city after Madrid and Barcelona, but over 2,000 years ago, it already shined under the reign of Caesar Augustus. In the fifteenth and sixteenth centuries, Valencia wielded economic power throughout the Mediterranean, as its large historic center and busy port demonstrate. This heritage, evident in Valencia’s many ancient monuments, picturesque views and exciting cultural attractions, makes the city one of the most popular destinations in Spain. In the new millennium, Valencia continues to make history with its avant-garde architecture, its warm, welcoming people, its cuisine and its strong economic fabric.

The birthplace of paella, one of Spain’s most iconic dishes, the city of Valencia is cooking up a lot more than rice these days!
Welcome to Valencia

Here are five experiences not to be missed in this exciting city:

1. Take advantage of Valencia’s public bicycle rental system and make your way to the Jardín del Turia for a scenic ride through the old, sunken riverbed of the Rio Turia. This scenic park lets you bike safely and avoid traffic as you stop to enjoy sports fields and playgrounds. At its eastern end, the park stretches nearly all the way to the Mediterranean Sea, and to the west, meets the City of Arts and Sciences.

2. The City of Arts and Sciences – Completed in 2005, this truly dream-like collection of architecturally unique buildings could take days to explore. Visit the Science Museum, enjoy an opera or an IMAX movie, spend a day in Europe’s largest aquarium, or just take a stroll and enjoy the incredible sites.

3. Visit the Ciutat Vella or Old City and experience Valencia’s rich historical past. Stroll through perfectly preserved plazas, cathedrals, museums and markets. Be sure to stop at the Plaza del Mercado where you’ll find the old Silk Market, a UNESCO World Heritage site, the colorful Central Market, one of Europe’s oldest, and the baroque-style Santos Juanes Church.

4. If you’ll be spending the spring in Valencia, make sure you’re in town for Las Fallas, a five-day festival commemorating Saint Joseph. Enormous, beautiful, brightly-colored sculptures are erected all over the city. On the final night of the festival, called La Crema, these works of art are burned in a spectacular display of fireworks and music. If you’re coming in the fall, make sure you stop by the Museo Fallero and discover the history of the event, as well as some of the most beautiful ninots, Valencian for dolls or figures, which each year are specially selected to be saved from the fire.

5. Of course you can’t come to town without sampling some paella, one of Valencia’s most famous culinary gifts to the world, and horchata, a drink made from chufas or tiger nuts. Make a real day of it and enjoy your meal on a beautiful Mediterranean beach.

Ready for your dream to become reality? With daily flights from Madrid and Barcelona, as well as high speed or semi-high speed train service to/from both cities, Valencia is never more than a few hours away.
Uniquely housed within a respected Spanish university, the UCV-US Program is designed to allow American students of varying academic backgrounds to pursue long-term, meaningful study abroad alongside Spanish and international students in one of Spain’s greatest cities. With the goal of linguistic and cultural immersion at its core, the UCV-US Program helps students acquire the intercultural skills necessary for success in today’s increasingly interconnected, global world.
The UCV-US Program

Difference

What does the UCV-US experience include? Check it out.

GET GOING

• Airport pick-up (arrival date & time are pre-established and communicated by UCV-US).

• Full orientation program, including tour of Valencia.

• Monthly Metro Card/Bus Pass valid for one month. Cards can easily be recharged for the rest of the semester/year.

• Guided excursions: UCV-US offers a variety of guided weekend, overnight, and day trips to different Spanish cities, landmarks in the province of Valencia, and in the region. These academic excursions add a highly relevant cultural component to the program’s curriculum. Previous overnight trips have included visits to Sevilla, Córdoba and Madrid. Day trips have included: La Albufera, Calpe, Altea, the Island of Tabarca, and the city of Alicante.

• Travel advising.

GET LIVING

• Choice of housing; students enjoy the following options:

  Homestays - Students live in Spanish-speaking homes where all meals are provided. With each family accommodating only one student, homestays are the optimal housing arrangement as they contribute directly to the UCV-US goals of language and cultural immersion. In the homestay, each student is considered a true member of the family. Homestays are located throughout the city of Valencia with convenient access to public transportation; students can easily commute to and from the University.

  Residence Halls - Study abroad students seeking a more independent environment may consider living in an off-campus residence hall with Spanish and other international students.

  Apartments - In some cases, students may prefer to share a piso or flat. UCV-US will assist students in finding safe, appropriate housing.

• Free wireless Internet access is readily available on the UCV campus, in student homestays, residence halls, and throughout the city of Valencia in Internet cafes and wireless hotspots. Students also have access to the many computer labs at the University.

• Access to a wide range of extracurricular activities in the university, including intramural and intercollegiate sports, as well as outdoor adventure activities.
GET LEARNING

- Access to all courses specific to the UCV-US Program, including the 3-credit Intensive Spanish Program conducted during orientation.

- Access to regular Catholic University of Valencia courses with Spanish students. Highlights include: courses in the Humanities, Health Sciences, Business, Law, and the Marine Sciences.

- Courses taught by faculty from the Catholic University of Valencia, professionals in a diverse range of areas, and instructors specialized in the field of Teaching Spanish as a Second Language.

- Academic & personal advising.

- The Catholic University of Valencia ID Card.

- Use of study rooms, libraries, computer rooms, and Wi-Fi.

- Conversation Exchange Program with Spanish & Erasmus (European) students.

- Information on the Official Exams of the Instituto Cervantes (D.E.L.E. Exams). The UCV is an official venue, as designated by the Spanish Ministry of Education, for the administration of the proficiency exams required to obtain a Certificate in Spanish as a Foreign Language.

STAY HEALTHY

As fully recognized UCV students, participants on the UCV-US Program are provided with medical insurance, giving them access to all university clinics, as well as a wide range of doctors in private practice, specialists and hospitals. Co-payments may apply.
Internships and Service Learning

Please see below for a general overview of each internship/service learning area:

Service Learning: Social Participation & Development:
Available to all UCV-US students, this option provides field experience with community service agencies, educational organizations and NGOs. Students work a minimum of five hours per week (more hours can be easily arranged based on need/student motivation) under the direction of a professional supervisor in the sponsoring organization. In addition, the student will meet regularly with a faculty mentor to prepare one or several written reports during and/or at the end of the internship experience. Through its Office of Social Action, the UCV partners with a diverse, extensive network of community organizations.

Teacher Training/Education:
UCV-US students have the opportunity to hone their teaching skills in nursery, primary and secondary schools throughout the city of Valencia. Teaching placements can be personalized based on the particular interests and language skills of each individual student. Limited availability.

Internship Program in Health and Medicine:
The UCV's own Clinicas Universitarias are fully accredited by the Regional Department of Health and afford qualified students the opportunity to gain first-hand experience in the fields of Sports Medicine, Dentistry, Psychology, Occupational Therapy, Physiotherapy, Speech Therapy, and Podiatry. Additional internship opportunities can be arranged in area hospitals, public health agencies, research organizations, and health advocacy groups. Students work a minimum of ten hours per week under the direction of a professional supervisor in the sponsoring organization. In addition, the student will meet periodically with a faculty member to prepare a significant written report at the end of the internship. Only students with a minimum 2.75 GPA, as well as the requisite language skills for their chosen placement, will be eligible. Limited availability.

Business Internships:
Qualified students (minimum 2.75 GPA, required language skills) with a demonstrated interest in Business and/or Economics are eligible to apply for an internship in a professional business firm. UCV-US interns work a minimum of ten hours per week under the supervision of a professional supervisor in the sponsoring organization. Each student must also meet regularly with a UCV faculty mentor to prepare a significant written report at the end of the internship.

Internship Program in Marine Science:
Highly qualified students may be eligible to pursue an internship in the UCV Marine Science Program. Located steps away from Europe's largest aquarium and the Mediterranean Sea, unique opportunities for marine research abound at the UCV. Interested students should contact the UCV-US program directly for details.

Whether focused on language and culture, social work, education, science, health or even business, UCV-US students have the opportunity to learn through meaningful, real world work and service experiences. The UCV-US Program, along with University coordinators, is dedicated to finding the best possible internship/service learning placements for interested students. Each setting provides a unique overview of the clinical and organizational aspects of the chosen field, and affords students the opportunity to perform a variety of work-related tasks.

Placement decisions carefully take into account each student's career/academic interests, their command of Spanish, and the varying demand/need for interns in the chosen field. Although some placements do require an advanced level of Spanish, English-language options are also available.
Academics

Intensive Spanish Program.

UCV-US students enroll in a full course load (5-6 courses / 15-18 U.S. credits) while in Valencia. In addition to the three-credit Intensive Spanish Program conducted during orientation, students continue to take Spanish language during the regular semester along with three or four additional elective courses. Electives may be chosen from among those courses designed specifically for the UCV-US Program, Direct Enrollment Courses for Spanish and international students at the UCV, and the wide variety of Internship and Service Learning opportunities on offer each semester.
Spanish Language Courses

Orientation Course - Intensive Spanish Program
3 U.S. Credits (Required *)

During orientation and prior to the start of the regular semester, UCV-US students participate in an intensive, two-week Spanish language course consisting of four hours of daily, highly personalized language instruction/practice with professional instructors. This course is designed to prepare students for the semester ahead and daily life in Spain.

Semester Spanish Courses
(Required *)

Students are placed into one of the following courses based on the results of a written proficiency exam and oral interview. Students with an advanced level of Spanish may choose Spanish for Business or Spanish for the Health Professions in place of a traditional language course.

* Unless otherwise instructed by home university

1. Beginner I – 3 U.S. Credits

Designed for students with no previous university-level Spanish, Spanish for Beginners I helps students get started with learning Spanish as a foreign language. The aim of this course is to provide students with the tools and motivation to begin their language experience. Students develop basic expressions, colloquial language, numbers, simple conversations and more while also learning about cultural norms and the Spanish lifestyle. An introduction to the basic rules of pronunciation and grammatical structures forms the core of this course. Practice with the homestay family is an integral component.

2. Beginner II – 3 U.S. Credits

Spanish for Beginners II is a course designed for students with a very basic level of Spanish (one semester of university-level Spanish study or equivalent). This course introduces a number of verbal tenses, syntax and grammar structures so that students build a strong and broad foundation for further linguistic development. Students apply these skills to reading and writing a variety of simple texts in Spanish. They are also faced with continuous and progressive listening and oral challenges. Practice with the homestay family is an integral component of the course.
3. Pre-Intermediate – 3 U.S. Credits

Designed for students with two semesters of previous university-level Spanish, this course thoroughly reviews the structure of the language using a variety of topics related to Hispanic culture. Vocabulary development and pronunciation practice are important components of the course as well. The audio-lingual aspect of the language is further developed, and the ability to read with understanding is increased. The primary goal is to help students become more communicative and active with the language as quickly as possible. Practice with the homestay family forms an integral component.

4. Intermediate – 3 U.S. Credits

Intermediate Spanish is designed for students who have had three or four semesters of previous university-level Spanish. The course seeks to improve students’ speaking, listening, reading and writing skills using a variety of topics related to Hispanic culture. Vocabulary development and pronunciation practice are important components of the course. The audio-lingual aspect of the language is further developed, and the ability to read with understanding is increased. Students are presented with different aspects of the more common language structures in order to achieve a solid foundation. Students develop culturally appropriate skills for everyday situations in Spain. Practice with the homestay family forms an integral component of the course.

5. Advanced Language – 3 U.S. Credits

Designed for students with four or five semesters of previous university-level Spanish, Advanced Language furthers students’ skills in all four competences: listening comprehension, oral production, reading comprehension, and writing production. The course makes use of a variety of contemporary registers, from the very colloquial to the more stylish/stylistic. Special attention is given to the more complex structures used in everyday life in Spanish. This course provides students with the necessary tools to produce statements in a variety of situations and social contexts. Practice with the homestay family forms an integral component.

6. Advanced Conversation and Composition
3 U.S. Credits

This course is recommended for students with six semesters of previous university-level Spanish or equivalent. Students achieve creative and innovative writing skills through the study of analytical, literary, and critical texts. Coursework focuses on stylistic variations while concentrating on other essential and interrelated writing elements, such as content, intention, and metaphors.
Spanish Language Courses

7. Spanish for Business – 3 U.S. Credits

This course is recommended for students with five semesters of College-level Spanish or equivalent. The aim of this course is to foster the student’s comprehensive and productive abilities both in written and oral productions. Spanish for Business is designed to provide students with specific vocabulary, expressions, communicative strategies, and special constructions for a variety of business-related contexts. Students are presented with the necessary skills to participate in business and financial environments. Highly qualified students may also enjoy business internship opportunities. Please contact UCV-US for more information.

8. Spanish for the Health Professions – 3 U.S. Credits

This course is recommended for students with four semesters of College-level Spanish or equivalent. Spanish for Health Professionals provides students with specific vocabulary, expressions, communicative strategies, and constructions related to health issues. Students learn the necessary tools to interact with Spanish-speakers in a variety of health-related settings. Essential grammar topics are reviewed so that health professionals can make themselves understood in many different situations. Students also engage in discussion about the cultural differences between Spain and the U.S., paying special attention to questions of health labor, as well as the benefits/challenges of socialized versus privatized medicine. Students with a high level of Spanish may enjoy an internship in a University health clinic or associated hospital (some restrictions may apply).
It’s time to explore, engage with, and embrace the unknown. 
It’s time to maximize your self

Whether you have a foundation in Spanish, or no experience at all, the UCV-US Program offers a variety of electives, taught in English and in Spanish, on subjects ranging from literature, history, and cinema to English, education, philosophy, sociology and business.

For a complete list of courses please visit us at: http://www.ucv.es/ucv-us or scan the QR.
1. Contemporary Spanish Literature. **Spring Only**

3 US Credits  
Language of Instruction/Spanish

The main purpose of this course is to analyze recent Spanish culture through a selection of films and literary works. Students read excerpts or full novels, several short stories, and watch a number of films over the course of the semester. Works selected focus on the period of rapid social, economic, and political change in Spain between 1979 and the present day. Through the study of each literary work, students will gain valuable knowledge of critical issues and a deeper understanding of the complexities of Spanish culture.

2. Survey of Spanish Literature. **Fall Only**

3 US Credits  
Language of Instruction/Spanish

This course reviews selections of the literature of Spain from the XI century to the present. The works are analyzed in their cultural and historical context focusing on the evolution of Spanish literature and culture. Students engage in the study of several novels, plays, and excerpts from other literary works; theatrical and cinematic adaptations of selected works are also incorporated.

3. Contemporary Hispanic-American Literature.  
**Fall Only**

3 US Credits  
Language of Instruction/Spanish

The main purpose of this course is to analyze recent Latin American cultural productions through a selection of literary works. Students will engage in texts beginning with what is known as “the Boom” all the way the 21st century literary productions, closing the course with the Bogotá 39 generation.

Through the study of each literary work, students will gain valuable knowledge of critical issues and gain a deeper understanding of the complexities/diversity of Latin American culture.
4. Survey of Hispanic-American Literature.
*Spring Only*

This course reviews selections of the literature of Latin America from pre-Columbian times to the present. Each work is analyzed in its cultural and historical context, analyzing the evolution of Hispanic literatures and cultures. Students engage in the study of several novels, plays, and excerpts from other literary works; theatrical and cinematic adaptations of selected works may also be incorporated.

5. The Gothic in Literature.

This course explores the Gothic as an artistic and cultural phenomenon from its earliest development in eighteenth century literature to its contemporary manifestations in modern cinema. Apart from discussing key works of the Gothic imagination, students will also seek to understand this genre in terms of its philosophical, psychological and sociological dimensions. As students engage in a thorough analysis of each text or film, they are also encouraged to think critically about the Gothic in relation to the European/American cultures in which it has developed.

6. Culture and Society of Contemporary Spain.

With an emphasis on the present-day, but setting the examination of institutions and attitudes in their historical context, this course offers an introduction to Spanish culture, familiarizing students with the social, economic and political structures of contemporary Spain. Course highlights include: the restoration of the ancestral monarchy after years of dictatorship; the organization in autonomous communities; and the perception of Spain in the world today.
7. History and Civilization of Spain.

This course provides students with a general overview of Spanish history from the Iberians, the Celts and the Phoenicians to the present, paying special attention to the mosaic of different cultures and civilizations that have shaped Spain. As they seek to understand questions of Spanish national identity, students engage with authentic texts and visual materials and are encouraged to think critically about the cultures studied. The notion that history, culture and civilization are concepts constantly “under construction” will also be explored.

8. History of Spain through Cinema.

This course provides students with a general overview of Spanish history from the Middle Ages to the present through cinema. In order to understand contemporary Spanish society, the class focuses on important aspects of the country’s history and analyzes each through a selection of films and historical texts. The aim of this course is not only to teach students how to analyze a film, but also to demonstrate how cinema can be both enjoyable and didactic, as it provides students with an increasing knowledge of Spanish culture and history.

9. Toys as an Education Tool.

Playing is an important part of child development and learning through play is the best way to develop new skills. Toys are mediating instruments for children’s play, usually designed with strong pedagogical potential to influence the development of the child. This course provides a general view of the process of learning through play-toy and a specific analysis of particular and popular toys. As students analyze the capacities toys develop and strengthen in children, they themselves develop an understanding of the science behind play.
10. Social Justice

This course introduces students to the study of social justice, attempting to link social theory, particularly the theories of Catholic social teaching, with social action and change. Students explore the diverse meanings and definitions of social justice while developing a critical understanding of key concepts and theories. Presented in relation to some of the most important social justice debates today, this course encourages students to apply their knowledge to a wide range of subject areas and social issues. As a key component of the course, students choose a relevant placement in a community service organization/NGO, complete a minimum of four hours of service per week, and engage in meaningful reflective practice with their peers.

"Maximize your learning experience and enhance your future"
UCV-US participants may choose to enroll directly in courses offered for Spanish and international students at the UCV. Students enrolling in these courses must make sure they meet all necessary prerequisites, including Spanish skills. In order to directly enroll in courses taught in Spanish, for example, students should have an advanced level (five or more semesters of previous university-level Spanish or equivalent). Interested students should contact the program directors as early as possible to confirm course availability and schedules.
Business, Law and Economics

With a wide selection of courses in English, this program is designed to give students a broad knowledge of the functional areas of a company, and their interconnectedness, while also allowing for specialization/study in a particular area of business. Directly-enrolled UCV-US students are exposed to a variety of core subjects, allowing them to develop practical managerial skills, communication skills and business decision-making capabilities. Highly qualified students can also enjoy practical experience, internships, and interaction with experts from the industry. Popular courses chosen by UCV-US students have included:

1. World Economics

<table>
<thead>
<tr>
<th>3 US Credits</th>
<th>Language of Instruction/English</th>
</tr>
</thead>
</table>

The purpose of this course is to provide students with a theoretical framework for analysis of the wealth and poverty of nations. Special attention will be paid to development theories, growth models, physical capital, population and human capital, science, technology and innovation, natural resources, government and economic growth, income inequality, and geography and climate.

2. Spanish Economic Structure

<table>
<thead>
<tr>
<th>3 US Credits</th>
<th>Language of Instruction/English</th>
</tr>
</thead>
</table>

This course reveals to students the idiosyncrasy of Spanish economic structures through the study of the country’s economic history and the development of its institutions. Students are taught to understand economic news, identify that which is relevant to the purposes of the firm, and to deduce possible consequences. The course also focuses on report-writing focused on the possible evolution of sectors and markets. Finally, students are taught to think as economists; to understand the different factors that are relevant to economic growth while keeping in mind the contributions of Spaniards to current economic thought.

3. The Role of Finance

<table>
<thead>
<tr>
<th>3 US Credits</th>
<th>Language of Instruction/English</th>
</tr>
</thead>
</table>

The objective of this course is to familiarize students with the role of the financial manager or CEO within a company, analyzing their key responsibilities and areas of influence inside the organization as well as the tools they have to deal with short- and long-term imbalances. Students receive a variety of inputs, both conceptual and factual (based on real life information), and are challenged to analyze situations in order to help them comprehend the key concepts of financial management.

Additional Direct Enrollment Courses offered in English include: Civil Law, Constitutional Law, Information Technology, Anthropology, European Community Law, Civil Law II, Administrative Law, Accounting, Mercantile Law, Foundations of Business Management, Mathematics for Business, Marketing I.
Education

Students with the necessary language skills may pursue coursework in Primary Education, Nursery Education, Education and Social Service, Speech Therapy, and Educational Psychology. Full information is available on the UCV-US website. Courses are primarily taught in Spanish, though options in English are often offered. Examples of popular courses for UCV-US students have included:

**Oral Expression & Anglo-Saxon Cultures**  
*Spring Only*

<table>
<thead>
<tr>
<th>3 US Credits</th>
<th>Language of Instruction/English</th>
</tr>
</thead>
</table>

This course is designed to provide an overview of key social issues in major English speaking countries; particular emphasis is placed on the United Kingdom and the United States.

**Teaching Children’s Literature**  
*Fall Only*

<table>
<thead>
<tr>
<th>3 US Credits</th>
<th>Language of Instruction/English</th>
</tr>
</thead>
</table>

This course is designed to provide students with critical literary tools and hands-on skills necessary for teaching literature in the nursery and primary school setting.

**Formación Literaria para Maestros/ Literary Formation for Teachers**

<table>
<thead>
<tr>
<th>3 US Credits</th>
<th>Language of Instruction/Spanish</th>
</tr>
</thead>
</table>

This course provides students with the fundamental tools necessary to critically approach any literary text and fully comprehend its meaning. Students will also learn about major youth/children’s literary works, paying special attention to how each one reflects the ideas of its historical time period. The last third of this course will be devoted to hands-on projects aimed at exploring the teaching possibilities of the works studied.
Nursing

The Nursing Program at the UCV prepares highly knowledgeable, skilled nurses. UCV trains professional nurses that are reflective, independent, who think logically and creatively on their feet, make decisions, interpret reality, and analyze the problems of everyday nursing practice in order to improve or change it. Furthermore, without losing the essence of the tradition of quality nursing education at the UCV, the new nursing curriculum provides training tailored to the needs and dynamics of today’s society. Courses taught in English include: Nursing Care of Women, Nutrition and Dietetics, Mental Health Nursing, IT Applied to Nursing, Life Support and Emergency Care.

Physiotherapy

The UCV program in Physiotherapy aims to train professionals committed to the promotion, maintenance and restoration of health, as well as the prevention of disability, in people of all ages. Physiotherapists optimize potential ability, physical function, independence and quality of life through rehabilitation practices. The UCV program provides students with an extensive understanding of the physical, structural and physiological aspects of the human form and movement, as well as the factors related to human functioning and the acquisition of skill. All courses are taught in Spanish. Qualified UCV-US students with advanced language skills may apply.

Sport Science

The UCV program in Sport Science focuses on the application of scientific principles with the aim of improving sporting performance. Through the study of science and sport, students develop a greater understanding of how the human body reacts to exercise, training, different environments, and many other stimuli. Courses offered in English include: Physical Activity and Health, Biomechanics of Physical Activity and Sport, Team Sports, Fundamentals of Research Applied to Sport Sciences, Exercise Physiology.
Marine Science

The Department of Marine Science at UCV is one of only five oceanography programs in all of Spain. This exciting program provides students with an understanding of biological, chemical, physical and geological oceanography, paying close attention to research both inland and at sea. Courses in English available to UCV-US students include: Marine Ecology, Methods in Oceanography II: Chemical and Biological Oceanography, Practicum I, Practicum II, Independent Research, Internship.

Dentistry

The training of future dentists has become increasingly important at the undergraduate level, with consequent improvement in clinical skills training and a reduction in the number of lectures. It is also important to emphasize the use of new technologies in the classroom, the importance of university dental clinics (with training programs and personalized assistance from professors), and the inclusion of a longitudinal curriculum in bioethics. Dentistry students are integrated into the clinical care team for much of their undergraduate studies. Courses in both Spanish and English are available to interested UCV-US students.

Biotechnology

The UCV Biotechnology Program examines microorganisms, plants and animals in the context of the discovery, understanding, improvement and development of viable products or activities. The discipline combines elements from many areas such as molecular genetics, microbiology, immunology, physics, chemistry, engineering and mathematics. Courses in English available to UCV-US students include: Molecular Genetics, Plant and Animal Biotechnology, Genomics, Proteomics, Internship Placements (in select partner institutions).
The UCV is strongly committed to the well-rounded education of future doctors, offering them a number of practical training experiences. Highly qualified UCV-US students have access to the following exciting opportunities in English: Practicum I - Psychiatry and Dermatology, Practicum II - Obstetrics, Pediatrics and Allergies, Practicum III - Cardiovascular and Respiratory, Practicum IV - Infectious, Nervous System and Nephrology, Practicum V - Locomotive, Rheumatology and Rehabilitation, Practicum VI - Ophthalmology, Oncology, Palliative Care, Practicum VII - Geriatrics, Practicum VIII - Family Medicine, Practicum IX - Hospital Emergency.
For complete application information and procedures, as well as for further information on course offerings, please visit the UCV-US Program website.
