Observations

The final grade for the course will be the result of the average between the final exam and the marks of the continuous evaluation, provided that at least a score of 5 out of 10 is obtained in the final exam. If the student scores less than 5 in the final exam, the mark of the continuous evaluation will not be averaged and the final grade for the course will be that of the final exam. Therefore, it is

necessary to pass the final exam (50% of the grade) to be able to average with the continuous assessment (50% of the grade).

Honors Grant Concession criterion:

The teacher will have discretion to grant or not Honors to one of the students who have obtained excellent.

This criterion of distinction award shall be subject, in any case, the general criterion of the UCV, whereby Honors will be granted, maximum, to every 20 students, or fraction for groups of fewer than 20 students.

SINGLE EVALUATION ONLY ON-SITE MODALITY

In accordance with UCV's General Regulations for the Assessment and Grading of Official Courses and Qualifications, single assessment is linked to the inability of students enrolled in a degree program to attend classes. It is, therefore, an extraordinary and exceptional assessment system available to students who, for justified and accredited reasons, are unable to undergo the continuous assessment system and request it from the professor responsible for the subject, who will expressly decide on the admission of the student's single assessment request and notify them of its acceptance or rejection.

In the subject Corporate Finance I, students must attend at least 70% of the sessions.

The single assessment, both in the first and second call, will consist of the final exam, which will be distributed as follows: a WRITTEN EXAM where the percentages given to the different assessment instruments will be as follows: 50% practical part and 50% theoretical part. With the minimum required to be passed of the practical part indicated in the teaching guide of the subject Corporate Finance I.

WITH REGARD TO AI

No artificial intelligence of any kind may be used in the subject Corporate Finance I, unless expressly authorized by the lecturer for specific practical activities. Under no circumstances will the use of AI tools be allowed during the evaluation tests.

MENTION OF DISTINCTION:

The mention of "Honors" may be awarded to students who have obtained a grade equal to or greater than 9.0. Their number may not exceed five percent of the students enrolled in a group in the corresponding academic year, unless the number of students enrolled is lower.
