Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2	40,00%	Written test
R2, R3, R4, R5, R6, R7	40,00%	Submission of papers
R2, R3, R4	20,00%	Laboratory test

Observations

This course is not eligible for single evaluation. According to the general evaluation and qualification regulations, the preferred evaluation system will be continuous evaluation. The continuous evaluation of the students will be based on questionnaires and practical activities that will be conducted during the course

A score >5 must be obtained in all the evaluation instruments in order to calculate the average grade. In case of obtaining a grade higher than 4.5 but lower than 5, additional activities can be requested to compensate the deficiencies shown by the student if the professor finds it appropriate. Regarding work reports, written reports or oral presentations of practical sessions will be 40% of the global score, and a report of the laboratory practice 20% of the global score. Attendance at practical sessions is mandatory.

*The use of artificial intelligence (AI)-based tools is subject to the discretion of the teacher, who may establish specific limits or conditions depending on the training or assessment activity.

MENTION OF DISTINCTION:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
