Observations

CRITERIA FOR GRANTING A GRADE OF A WITH HONORS

Registration may be granted for every 20 students, the beneficiaries being students who have achieved top marks as long as they're less than 9.0. When several students have the same note and there is no honor registrations available to all, shall address the following criteria:

- Active participation in classroom
- Making an oral evaluation test about the contents of the course

To pass the subject in the 1st enrolment:

To overcome with, at least 50% each of the evaluation tests proposed by the teacher. Each evaluation test will be stated by the teacher in the tutorial. Any student who does not successfully overcome some of the evaluation tests, but the final weight of the note exceeds 5, will be awarded a score of 4.5. Any student not attending the exam, even if other activities have been submitted in due course, will be considered as "no-show". The marks obtained in the evaluation tests that scored 5 or more, will be saved until the 4th call.

To pass the subject in the 2nd enrollment it will be essential:

The students of the 2nd enrollment will be able to attend 6 tutorials in which they will prepare the evaluation of the competences that they have had pending in the previous calls. The notes of the past calls that were passed with a 5 or more will be kept. Presenting yourself again to one of these tests implies the cancellation of the previous note. It will be necessary to successfully pass 40% of the exam. The grade obtained in the exam corresponds to 60% of the grade for the course. The notes of classroom activities, practices and / or practical work 40%. The sum of both grades must be equal to or greater than 5. A student who does not successfully pass 40% of the exam, but the final weight of the grade exceeds 5, will be awarded a grade of 4.5. A student who, even having carried out the classroom activities, practices and / or assignments, does not appear for the exam will be evaluated with a No Show.

To pass the subject in the 3rd enrolment

Students in 3rd and 4th call may attend to six (6) tutorials in order to revise for the evaluation of these competencies which might be pending in previous call. The notes of the last calls that were overcome with 5 or more will be kept. To resit for these tests makes the previous mark null and void.

Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

Situation 1: Teaching without limited capacity (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).

In this case, no changes are made in the guide of the subject.

Situation 2: Teaching with limited capacity (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

- Microsoft Teams
- Blackboard Collaborate Ultra
- Kaltura

Situation 3: Confinement due to a new State of Alarm.

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

- Microsoft Teams
- Blackboard Collaborate Ultra
- Kaltura

Explanation about the practical sessions:

2. System for Assessing the Acquisition of the competences and Assessment System

ONSITE WORK

Regarding the Assessment Tools:

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

The following changes will be made to adapt the subject's assessment to the online teaching.

Course guide		Adaptation	
Assessment tool	Allocated percentage	Description of the suggested changes	Platform to be used

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.
