

Information about the subject

Degree: Bachelor of Sciences of Physical Activity and Sport

Faculty: Faculty of Physical Activity and Sport Sciences

Code: 283402 **Name:** Practicum II

Credits: 6,00 **ECTS Year:** 4 **Semester:** 2

Module: 12) External practices

Subject Matter: Prácticum II **Type:** Internship

Field of knowledge: Coordinating external Practices

Department: Basic Sciences

Type of learning: Classroom-based learning

Languages in which it is taught: Spanish

Lecturer/-s:

Module organization

12) External practices

Subject Matter	ECTS	Subject	ECTS	Year/semester
Practicum I	6,00	Practicum I	6,00	4/1
Prácticum II	6,00	Practicum II	6,00	4/2
Practicum III	6,00	Practicum III	6,00	4/2

Recommended knowledge

Have completed 24 credits in the chosen itinerary.

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 Know the reality of work and competent part of the graduate in Sport Sciences.
- R2 Promote the analysis and reflection balanced through scientific knowledge and practical experience.
- R3 Manage information by synthesizing it to substantiate the points of the required documentation (portfolio).
- R4 Propose alternatives to the difficulties and problems that arise in the professional context.
- R5 Consider initial formation as the beginning of the formational process, and reflect on the gaps in the preparation and the specific need for a permanent professional renewal.

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

GENERAL	Weighting			
	1	2	3	4
CG2 Ability to apply information technology and communication (ICT)			X	
CG3 Develop skills to solve problems through decision-making				X
CG5 Plan and organize any activity efficiently				X
CG7 Be capable of critical reasoning using the knowledge gained				X
CG9 Knowing and complying with the professional ethics necessary to work				X
CG11 Develop skills for creativity, initiative and entrepreneurship				X
CG13 Being able to apply theoretical knowledge in practice				X
CG15 Conveying the acquired knowledge both to specialists in the subject and to people who are not experts on it				X
CG18 Being able to assess themselves				X
CG19 Developing habits aiming at obtaining excellence and quality at work				X
SPECIFIC	Weighting			
	1	2	3	4
CE1 Knowing and understanding the contents within the scope of Physical Activity and Sports Science				X

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4	30,00%	Delivery of the final practice report.
R1, R2, R3, R4	60,00%	Report and assessment of the tutor and the practice supervisor.
R5	10,00%	Student self-assessment in practices.

Observations

Criteria for granting a grade of a with honors:

- Add up 9 pts rating. By high to low depending on the number of student and ratio indicated by rules of UCV (is only possible to give an A with honors for each 20 students, not by fraction of 20, excepted in case of groups with less than 20 students in total, which can be given an A with honors).
- If equal numbers in the final grade, the teacher will take into account the interest, illingness and involvement of students in the course.

To pass the subject at 1st or 2nd enrolment:

- To pass the subject all the percentages must be passed by a rate of 5 or more.
- The portfolio not be accepted at the end of the process, if you have not done the timing and tracking schedule.
- All students that don't meet requirements to pass the course but the overall rating is equal to or greater than 5 will be rated with 4.5

To pass the subject at second enrolment:

- The students enrolled in second enrollment will have the same tutor center than the previous year, which will be assessing
- To pass the course, students must pass the outstanding skills of the previous course, attending sessions listed in the schedule of the course, as well as the established tutorials by his practices tutor.
- You must obtain a minimum score of 5 in the following sections: participation in tutorials monitoring, assessment of external tutor and tutor assessmentUCV-portfolios.

To pass the subject at third enrolment:

- To pass the course, students must pass the outstanding skills of the previous course, attending sessions listed in the schedule of the course, as well as the established tutorials by his practices

tutor.

You must obtain a minimum score of 5 in the following sections: participation in tutorials monitoring, assessment of external tutor and tutor assessmentUCV-portfolios.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

M3 Resolution of problems and cases.

M7 Internship assistance.

IN-CLASS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
TUTORY: Learning supervision, evolution. Discussion in small groups. Resolution of problems and cases. Presentation of results before the teacher. Presentation of schemes and indexes of the proposed works. M3	R1, R4, R5	25,00	1,00
PRACTICAL ASSISTANCE: The practices will be tutored by a tutor from the entity where they are carried out. There will also be a supervisor of the internship process belonging to the university. M3, M7	R2, R3, R4, R5	125,00	5,00
TOTAL		150,00	6,00

Description of the contents

Description of the necessary contents to acquire the learning outcomes.

Theoretical contents:

Content block	Contents
UD I	Work meetings with the tutor (UCV).
UD II	Tutorships.

Temporary organization of learning:

Block of content	Number of sessions	Hours
UD I	12,00	24,00
UD II	63,00	126,00

Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

Situation 1: Teaching without limited capacity (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).

In this case, no changes are made in the guide of the subject.

Situation 2: Teaching with limited capacity (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

Microsoft Teams

Kaltura

Situation 3: Confinement due to a new State of Alarm.

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

Microsoft Teams

Kaltura

Explanation about the practical sessions:

The external academic practices will be adapted and carried out through the telematic tools provided by the university and by each of the collaborating entities where the student is carrying out their practices. The actions to apply knowledge to the real context and the methodology will also be adapted to the situation and to the criteria and preventive measures that are established by the UCV and the Government.

2. System for Assessing the Acquisition of the competences and Assessment System

ONSITE WORK

Regarding the Assessment Tools:

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

The following changes will be made to adapt the subject's assessment to the online teaching.

Course guide		Adaptation	
Assessment tool	Allocated percentage	Description of the suggested changes	Platform to be used

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

Comments to the Assessment System:

The evaluation system is maintained, but it will be adapted to the deadlines and criteria adopted by the university
