Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R3, R4, R5, R6	50,00%	Practical tests
R1, R2, R3, R4, R5, R6	15,00%	Attendance, active participation and favourable attitude in the subject/ course/ module
R1, R2, R3, R4, R5, R6	35,00%	Written theoretical tests

Observations

1ª) Students must obtain a minimum of 4 points out of 10 in the theoretical exam and in the practical exam to make the average and to be able to sum the other assessment instruments. However, in the 2nd call, the practices presented throughout the course will not be taken into account, neither the assistance and participation. The student must do a practical questionnaire and a theoretical questionnaire the same date of the official exam. The mark obtained in said tests will represent 100% of the final grade (50% theoretical and 50% practical).

2ª) In relation to the concept of "attendance, active participation and a favourable attitude in the subject" (15%), the mere attendance or physical presence at classes will not compute anything: the 15% will derive from the favourable attitude in the subject. The assessment will be made through the records of attendance and the quality of the participation.

3ª) Students must obtain a minimum of 5 points out of 10, both in 1st or 2nd call, to pass the subject.

MENTION OF DISTINCTION:

According to Article 22 of the Regulations governing the Evaluation and Qualification of UCV Courses, the mention of "Distinction of Honor" may be awarded by the professor responsible for the course to students who have obtained, at least, the qualification of 9 over 10 ("Sobresaliente"). The number of "Distinction of Honor" mentions that may be awarded may not exceed five percent of the number of students included in the same official record, unless this number is lower than 20, in which case only one "Distinction of Honor" may be awarded.
