Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
	50,00%	Practical tests
	15,00%	Attendance, active participation and favourable attitude in the subject/ course/ module
	35,00%	Written theoretical tests

Observations

- To compute the set of grades, the theoretical examination (5/10) and the individual practical test must be passed. In order to pass the course it is necessary to obtain a grade of 5 out of 10 in the course set.
- At the second sitting, only the mark obtained in the theoretical and practical examination will be taken into account. It will only consist of one exam, it will not be possible to recover scores from the other sections (activities, attendance, participation).
- In relation to absences, the communication of these will be made in advance - when possible - and the justification, in any case, within the following 7 days by e-mail.
- Attendance will be valued at 5% in the final qualification (obtaining the record by signature sheets). Participation will be considered in a double way: on the one hand, intervening in the sessions by offering adequate answers to the questions raised by the teacher in the classroom and, on the other hand, assuming tasks that the teacher will offer during the sessions. The attendance to the sessions is necessary to obtain the qualification related to the active participation of the student.

According to Article 22 of the Regulations governing the Evaluation and Qualification of UCV Courses, the mention of "Distinction of Honor" may be awarded by the professor responsible for the course to students who have obtained, at least, the qualification of 9 over 10 ("Sobresaliente"). The number of "Distinction of Honor" mentions that may be awarded may not exceed five percent of the number of students included in the same official record, unless this number is lower than 20, in which case only one "Distinction of Honor" may be awarded.
