Recommended knowledge

Students must have passed at least 48 ECTS of FB in the first two semesters. Students can freely choose the electives they want, breaking with the grouping that is proposed

Prerequisites

Students must have passed at least the 48 ECTS of Basic Training of the first two semesters. Students are free to choose the electives they wish, breaking with the grouping proposed. As explained above, the Study Plan has three optional subjects that are grouped in this way:

- 1 optional subject in the seventh semester.
- 2 optional subjects in the eighth semester.

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 To know the legislation related to insurance.
- R2 To be able to distinguish the different types of insurance contracts and their most common clauses.
- R3 To distinguish the different organizations and entities or persons involved in the formalization of insurance contracts.
- R4 To apply correctly the tables of valuation of the corporal and material damage.

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

GENERAL		Weighting			
		1	2	3	4
CG1	Knowledge of the Science being studied, in this case of the science of Law, fundamentally of the most practical branches, with their international and economic implications and their specialized language.				X

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R2, R3, R4	40,00%	Practical tests
R1	40,00%	Attendance, active participation and favourable attitude in the subject/ course/ module
R1, R2, R3	20,00%	Written theoretical tests

Observations

Attendance and active participation in class sessions, group work, tutorials and seminars. Its evaluation will be carried out by means of monitoring records of attendance by the teacher. Practical evaluation: Resolution of the different practices that will be proposed to the student throughout the course. The evaluation of the practices and group work will be carried out by means of the attendance and oral and / or written presentation of the different practices and proposed works. The work developed in groups and / or individually by the student will be evaluated. The evaluation of the works presented will be carried out taking into account the structure of the work, the quality of the documentation, the spelling and presentation and mainly, the argumentation and legal-legal basis. The qualification will be obtained from the average of all the qualifications obtained in this section. The unjustified lack of attendance at 20% of the practical sessions prevents the calculation of this percentage.

Theoretical evaluation: Theoretical-practical written tests in which the theoretical and practical knowledge acquired and the knowledge of the current legislation will be exposed. It is essential to obtain a minimum of 5 out of 10 in the exam to be able to do the average with the practice mark. Scores lower than 5 do not count in the percentage. If a grade lower than 5 is obtained in the official exam of the first call, the final average mark of the practices carried out in class and / or group work will be maintained for the second call.

MENTION OF DISTINCTION:

According to Article 22 of the Regulations governing the Evaluation and Qualification of UCV Courses, the mention of "Distinction of Honor" may be awarded by the professor responsible for the course to students who have obtained, at least, the qualification of 9 over 10 ("Sobresaliente"). The number of "Distinction of Honor" mentions that may be awarded may not exceed five percent of the number of students included in the same official record, unless this number is lower than 20, in which case only one "Distinction of Honor" may be awarded.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Group work sessions supervised by the teacher. Study of legal cases, both true and fictitious. Significant construction of knowledge through student interaction and activity. Critical analysis of values and social commitment.
- M8 Exposition of contents by the teacher, analysis of competences, explanation and demonstration of capacities, skills and knowledge in the classroom.
- M9 Supervised monographic sessions with shared participation.
- M11 Personalised attention and in small groups. Period of instruction and/or orientation carried out by a tutor with the aim of reviewing and discussing the materials and topics presented in the classes, seminars, readings, completion of assignments, etc.
- M12 Set of written and/or oral tests used in the initial, formative or summative evaluation of the student.
- M13 Group preparation of readings, essays, resolution of problems, seminars, papers, dossiers, etc., to be presented or delivered in theory classes, practical classes, and/or small group tutorials.
- M14 Student's study: individual preparation of readings, essays, problem-solving, seminars, works, reports, etc. to present or deliver in the theoretical classes, practical classes and/or small group tutorials.
