

Information about the subject

Degree: Bachelor of Arts Degree in Early Childhood Education

Faculty: Faculty of Teacher Training and Education Sciences

Code: 1410302 **Name:** Specific Learning Difficulties

Credits: 6,00 **ECTS Year:** 3 **Semester:** 2

Module: Learning and personality development

Subject Matter: Learning difficulties and developmental disorders **Type:** Compulsory

Department: -

Type of learning: Classroom-based learning

Languages in which it is taught: Spanish

Lecturer/-s:

143A	<u>Maria Consuelo Cerda Marin</u> (Responsible Lecturer)	consuelo.cerda@ucv.es
143ALA	<u>Monica Montaña Merchan</u> (Responsible Lecturer)	monica.montano@ucv.es
143B	<u>Diego Navarro Mateu</u> (Responsible Lecturer)	diego.navarro@ucv.es
143C	<u>Noemi Bresó Grancha</u> (Responsible Lecturer)	noemi.breso@ucv.es
143PA	<u>Maria Teresa Gomez Dominguez</u> (Responsible Lecturer)	mt.gomez@ucv.es

Module organization

Learning and personality development

Subject Matter	ECTS	Subject	ECTS	Year/semester
Educational processes, learning and personality development	18,00	Developmental Psychology	6,00	1/1
		Psychology of Education	6,00	2/1
		Psychology of Language Development	6,00	1/2
Learning difficulties and developmental disorders	18,00	Care of Students with Specific Needs of Educational Support	6,00	3/1
		Specific Learning Difficulties	6,00	3/2
		Specific Needs of Educational Support	6,00	2/2

Recommended knowledge

None

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 The student knows how to identify and adapt specific didactic materials and resources, knows how to apply the methodologies and intervention techniques according to the singularity of each student.
- R2 The student knows how to apply the most appropriate methodologies and specific intervention techniques in each teaching-learning situation.
- R3 The student detects possible undiagnosed specific educational support needs.
- R4 The student manages the organizational aspects of the classroom to adequately attend the unique needs of the students.
- R5 The student solves practical cases, individually and in groups, related to the contents of the subject.
- R6 The student identifies specific materials and knows how to analyze and adapt didactic materials and resources according to the singularity of each student.
- R7 The student knows how to apply the most appropriate methodologies and specific intervention techniques in each teaching-learning situation.
- R8 The student detects and knows how to prevent possible undiagnosed specific educational support needs.
- R9 The student manages the organizational aspects of the classroom to adequately meet the unique needs of the students.
- R10 The student has criteria to make appropriate decisions in the design and implementation of educational response measures according to the regulations in force.
- R11 The student analyzes the variables that intervene in the socio-affective development of the student with specific educational support needs, in order to be able to orient families and work closely with them, together with other agents involved.
- R12 The student observes coexistence situations in the classroom, identifies variables and analyzes with critical judgment and/or applies appropriate intervention techniques, aimed at their resolution.
- R13 The student identifies specific materials and knows how to analyze and adapt didactic materials and resources according to the singularity of each student.
- R14 The student knows how to apply the most appropriate methodologies and specific intervention techniques in each teaching-learning situation.

- R15 The student has criteria to make adequate decisions in the design and implementation of curricular adaptations and intervention programs.
- R16 The student solves practical cases, individually and in groups, related to the contents of the subject.
- R17 The student acquires a specific vocabulary of the subject.

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

BASIC		Weighting			
		1	2	3	4
CB1	That students have demonstrated possession and understanding of knowledge in an area of study that builds on the foundation of general secondary education, and is usually at a level that, while relying on advanced textbooks, also includes some aspects that involve knowledge from the cutting edge of their field of study.			X	
CB2	That students know how to apply their knowledge to their work or vocation in a professional manner and possess the skills that are usually demonstrated through the development and defense of arguments and problem solving within their area of study.			X	
CB3	That students have the ability to gather and interpret relevant data (usually within their area of study) to make judgments that include a reflection on relevant social, scientific or ethical issues.				X
CB4	That students can convey information, ideas, problems and solutions to both specialized and non-specialized audiences.				X
CB5	That students have developed those learning skills necessary to undertake further studies with a high degree of autonomy.				X
GENERAL		Weighting			
		1	2	3	4
G1	To know the objectives, curricular contents and evaluation criteria of Early Childhood Education.			X	
G2	To promote and facilitate learning in early childhood, from a globalizing and integrating perspective of the different cognitive, emotional, psychomotor and volitional dimensions.			X	
G3	To design and regulate learning spaces in contexts of diversity that address the unique educational needs of students, gender equality, equity and respect for human rights.				X

G4	To promote coexistence in the classroom and outside it and address the peaceful resolution of conflicts. To know how to systematically observe learning and coexistence contexts and to know how to reflect on them.				X
G5	To reflect as a group on the acceptance of rules and respect for others. Promote the autonomy and uniqueness of each student as factors in the education of emotions, feelings and values in early childhood.	X			
G6	To know the evolution of language in early childhood, know how to identify possible dysfunctions and ensure their correct evolution. To deal effectively with language learning situations in multicultural and multilingual contexts. Express themselves orally and in writing and master the use of different techniques of expression.				X
G7	To know the educational implications of information and communication technologies and, in particular, of television in early childhood.	X			
G9	To know the organization of early childhood education schools and the diversity of actions that comprise their operation. To recognize that the practice of the teaching function must be improved and adapted to scientific, pedagogical and social changes throughout life.			X	
G10	To act as a counselor for parents in relation to family education in the 0-6 period and to master social skills in dealing and relating with the family of each student and with the families as a whole.			X	
G11	To reflect on classroom practices to innovate and improve teaching. To acquire habits and skills for autonomous and cooperative learning and promote it in students.			X	
G12	To understand the role, possibilities and limits of education in today's society and the fundamental competencies that affect early childhood education schools and their professionals. To know models of quality improvement with application to educational centers.				X

SPECIFIC		Weighting			
		1	2	3	4
E1	To understand the learning and educational processes during childhood in the family, social and school environments.			X

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
	40,00%	Written test: Final summative or continuous theoretical and practical test (open questions, objective test questions, truncated exam, etc.). Preparation of fieldwork memorandums. Solution of case studies, single case, etc.
	20,00%	Oral presentation of group and individual work.
	10,00%	Individual monitoring of attendance at face-to-face sessions and active participation in theoretical and practical classes, seminars and tutorials.
	30,00%	Non-final written exams: individual or group directed work.

Observations

In order to add up the percentages, it is essential to pass each and every one of the evaluation instruments. Failure to comply with the rules and deadlines established for the completion of the academic activities will invalidate the grade.

The student will have to elaborate after each session a document of diary on this one. Each week must upload to the task indicated for this purpose the two documents in appropriate textual conditions and specified in the platform.

It will be considered for this percentage a minimum attendance of 80% as well as the presentation in the indicated terms all the requested tasks.

CRITERIA FOR THE AWARDING OF HONOURS:

As a sign of academic exceptionality, the Honour's Degree will be awarded to the student who, in addition to obtaining a maximum mark in the above criteria, is considered by the teacher to be worthy of such a distinction. And, in accordance with the general regulations which indicate that only one matriculation of honour can be awarded for every 20 students, not per fraction of 20, with the exception of the case of groups of less than 20 students in total, in which one matriculation can be awarded.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 PARTICIPATIVE MASTERCLASS
- M2 CLASSROOM PRACTICES
- M3 CASE STUDIES
- M4 APPRENTICESHIP CONTRACTS
- M7 GROUP TUTORING
- M8 INDIVIDUAL TUTORING
- M9 PROJECT-BASED LEARNING

IN-CLASS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
Presentation of content by the teacher, analysis of competences, explanation and demonstration of skills, abilities and knowledge in the classroom. M1	R2	18,00	0,72
Group work sessions supervised by the teacher, case studies, diagnostic analyses, problems, field studies, computer classroom, visits, data searches, libraries, network, Internet, etc. Meaningful construction of knowledge through student interaction and activity. M2	R1	13,66	0,55
Supervised monographic sessions with shared participation M3	R16	10,00	0,40
Presentation in plenary. Application of interdisciplinary knowledge M3	R17	6,84	0,27
Personalised attention in small groups. Period of instruction and/or guidance by a tutor with the aim of reviewing and discussing the materials and topics presented in classes, seminars, readings, assignments, etc. M1	R1	6,84	0,27
Set of oral and/or written tests used in the initial, formative or summative assessment of the student. M1	R1	4,66	0,19
TOTAL		60,00	2,40

LEARNING ACTIVITIES OF AUTONOMOUS WORK

	LEARNING OUTCOMES	HOURS	ECTS
Group preparation of readings, essays, problem solving, seminars, papers, reports, etc. to present or deliver in theory classes, practical classes and/or small group tutorials. Work done on the platform or other virtual spaces. M1	R1	36,66	1,47
Student study: Individual preparation of readings, essays, problem solving, seminars, papers, reports, etc. to present or deliver in theory classes, practical classes and/or small group tutorials. Work done on the platform or other virtual spaces. M1	R1	53,34	2,13
TOTAL		90,00	3,60

Description of the contents

Description of the necessary contents to acquire the learning outcomes.

Theoretical contents:

Content block	Contents
Dificultades específicas de aprendizaje	<ol style="list-style-type: none">1. Learning difficulties: conceptualization, detection and intervention.2. Legislative framework of learning difficulties in Early Childhood Education.3. Personal and social characteristics of students with AD. Analysis of comorbidity in AD.4. Early stimulation.5. Learning disabilities in reading: pre-reading skills. Metalinguistic skills in reading. Reading comprehension. Previous skills.6. Learning difficulties in writing.7. Learning difficulties in mathematics.

Temporary organization of learning:

Block of content	Number of sessions	Hours
Dificultades específicas de aprendizaje	30,00	60,00

Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

Situation 1: Teaching without limited capacity (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).

In this case, no changes are made in the guide of the subject.

Situation 2: Teaching with limited capacity (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

☒ Microsoft Teams

☐ Kaltura

Situation 3: Confinement due to a new State of Alarm.

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

☒ Microsoft Teams

☐ Kaltura

Explanation about the practical sessions:

2. System for Assessing the Acquisition of the competences and Assessment System

ONSITE WORK

Regarding the Assessment Tools:

☒

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

☐

The following changes will be made to adapt the subject's assessment to the online teaching.

Course guide		Adaptation	
Assessment tool	Allocated percentage	Description of the suggested changes	Platform to be used

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

Comments to the Assessment System:
