Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R2, R3, R4	5,00%	Oral presentation of group and individual works: Self-assessment systems (oral, written, individual, in groups). Oral tests (individual, in groups, presentation of topics or works).
R1, R2, R3, R4	10,00%	Active participation in theoretical-practical sessions, seminars, and tutorials: Attitude scale (to gather opinions, values, social and managerial skills, interaction behaviors).
R1, R2, R3, R4	50,00%	Written tests: Objective tests with short and extended responses.
R1, R2, R3, R4	35,00%	Projects. Development and/or design works.

Observations

There will be a series of compulsory readings that each professor will detail at the beginning of the classes. These readings will be evaluated both in the works and projects and in the written tests. All individual and group works start by reading and analyzing works of fiction, specialized books and articles and specialized sources to promote different requirements of the curriculum of the Generalitat Valenciana.

All the works will have a concrete execution and delivery date, which must be respected to pass the subject.

Those works that are based on the simple copy, the uncritical textual summary will be penalized.

Plagiarism or the use of illegal means will cause the student to fail.

These consist of, but are not limited to:

- Reading, research and reflection on literary texts with the help of academic bibliography and/or through field work.

- Preparation of didactic proposals to promote reading and literary competence based on the analysis of the readings developed in the previous tasks.

The final written test includes short questions (between 30 and 40% of the total exam. Every three wrong questions eliminates one right) and long questions. The exam grade will be the sum of both parts, that is, they are not eliminatory.

- It is necessary to pass the final written test with a grade equal to or greater than 5/10, as well as to obtain an overall average of 5/10 or greater in the set of assessment instruments to obtain a pass

grade for the subject.

• Since the teacher must be a professional of the word and for this reason the order ECI 3857/2007 of December 27 establishes the achievement of a C1 level for the students of this grade, in the subject a correct written expression must be evidenced through written tests, and this will be a necessary condition for its passing. Specifically, it is a condition for passing the subject not to make more than five spelling mistakes. Each one of the faults, without exceeding the allowed limit, will entail a penalty of -0.25 points (out of 10) of the final grade of the test. Repetitions of the same error or punctuation marks (except the comma between subject and predicate) will not be considered.

Likewise, considering the aforementioned level of language and the descriptors established in it, the subject will contribute to demonstrating competences such as the following:

-To write clear and well-structured expositions on complex topics, highlighting the main ideas.

Expand at some length and defend points of view with supporting ideas, reasons and appropriate examples.

-To comprehend with relative ease most of the lectures, discussions and debates.

-To take detailed notes during a conference that deals with topics of your specialty, transcribing the information so accurately and close to the original, that the notes could also be useful to other people.

-To comprehend in full detail a wide range of large and complex texts that you are likely to encounter in social, professional or academic life, and identifies subtle details that include both implicit and explicit attitudes and opinions.

Criteria for awarding Honors: Obtaining an M. de H. will be possible from an overall grade >9.2/10 and with the discretionary consideration endorsed by the professor who signs the transcript of records.

CRITERIA FOR THE AWARDING OF HONOURS:

As a sign of academic exceptionality, the Honour's Degree will be awarded to the student who, in addition to obtaining a maximum mark in the above criteria, is considered by the teacher to be worthy of such a distinction. And, in accordance with the general regulations which indicate that only one matriculation of honour can be awarded for every 20 students, not per fraction of 20, with the exception of the case of groups of less than 20 students in total, in which one matriculation can be awarded.

Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

Situation 1: Teaching without limited capacity (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).

In this case, no changes are made in the guide of the subject.

Situation 2: Teaching with limited capacity (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).

In this case, the following changes are made:

1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

☒ Microsoft Teams

☐ Kaltura

Situation 3: Confinement due to a new State of Alarm.

In this case, the following changes are made:
