Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

R1   Choose the appropriate evaluation method to adapt to the diagnostic, planning, or monitoring purposes of educational intervention based on the characteristics of students with educational support needs in the areas of language, speech, and associated functions

R2   Interpret the results of standardized tests or other evaluation strategies to select educational support objectives

R3   Write reports about evaluation results that are useful for integration into the educational support teams of schools

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

GENERAL		Weighting			
		1	2	3	4
CG2	Design, plan, and evaluate teaching and learning processes, both individually and in collaboration with other teachers and professionals from the school.				x
CG3	Effectively address language learning scenarios in multicultural and multilingual contexts. Promote reading and critical analysis of texts from various scientific and cultural domains included in the school curriculum.			x	
CG4	Design and regulate learning spaces in diverse contexts that address gender equality, equity, and respect for human rights, which form the values of citizenship education.				x
CG5	Promote a positive coexistence inside and outside of the classroom, resolve discipline issues, and contribute to peaceful resolution of conflicts. Encourage and value effort, perseverance, and personal discipline in students.		x		
CG6	Know the organization of primary education schools and the diversity of actions involved in their functioning. Perform tutoring and orientation with students and their families, addressing the singular educational needs of the students. Recognize that the exercise of the teaching function must go on improving and adapting to the scientific, pedagogical, and social changes throughout life.				x
CG10	Reflect on classroom practices to innovate and improve teaching work. Acquire habits and skills for autonomous and coopoerative learning and promote it among students.				x
CG11	Know and apply information and communication technologies in the classrooms. Selectively discern audiovisual information that contributes to learning, civic education, and cultural enrichment.				x

CG12	Understand the function, possibilities, and the limits of education in today's society and the fundamental competencies that affect primary education schools and their professionals. Know the models of quality improvement applied to educational institutions.			x	

SPECIFIC		Weighting			
		1	2	3	4
EAL1	Be able to select appropriate instruments to assess the language and speech development of children with educational support needs.				x
EAL2	Be able to analyse the areas susceptible to educational support, evaluate them with objective criteria and write professional reports to contribute the specialist's vision to the educational framework in which the collaborative action with the rest of the educators is developed.				x
EAL6	To understand one's own action in terms of collaboration with the other agents involved with the pupils in order to apply the appropriate strategies in the educational framework.			x	

Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3	10,00%	Solution of practical cases: Execution tests, real and/or simulated tasks.
R1, R2, R3	20,00%	Oral presentation of group and individual works: Self-assessment systems (oral, written, individual, in groups). Oral tests (individual, in groups, presentation of topics or works).
R1, R2, R3	10,00%	Monitoring of student work in non-face-to-face/distance sessions: Observation techniques, rubrics, checklists. Portfolios.
R1, R2, R3	10,00%	Active participation in theoretical-practical sessions, seminars, and tutorials: Attitude scale (to gather opinions, values, social and managerial skills, interaction behaviors).
R1, R2, R3	40,00%	Written tests: Objective tests with short and extended responses.
R1, R2, R3	10,00%	Projects. Development and/or design works.

Observations

The evaluation includes several well differentiated instruments. The final grade will be the weighted average of the results obtained in each of them, provided that the written test has been passed with a minimum grade of 5. This written test consists of a section with multiple choice questions and the development of a case.

In order to pass the course, it is necessary to demonstrate in all oral and written productions an advanced level of linguistic proficiency, so as to achieve at the end of the degree the C1 level, as required by the official Memory of the degree. Therefore, each spelling mistake will be, consequently, penalized in papers and exams with 0.50 points. Three missing accents will be equivalent to one spelling mistake.

Failure to comply with the rules and deadlines established for the completion of academic activities may invalidate the grade of the same.

Criteria for the awarding of Honor Grades: After obtaining a 9 and provided that the result obtained is the result of an excellent academic achievement combined with an effort and interest in the

subject.

CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

M1   Participatory Master Class

M2   Case Study

M4   Learning Contracts

M5   Seminar Work

M6   Problem-based Learning

M7   Cooperative/Collaborative Work

M9   Group and Individual Tutoring

M10   Individual Tutoring

M11   Participatory Master Class

M12   Case Study

M13   Seminar Work

M16   Learning Contracts

M17   Problem-based Learning

M18   Cooperative/Collaborative Work

M19   Individual Tutoring

M20   Group and Individual Tutoring
