Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R2, R4	10,00%	Oral presentation of group and individual works: Self-assessment systems (oral, written, individual, in groups). Oral tests (individual, in groups, presentation of topics or works).
R2, R4	10,00%	Active participation in theoretical-practical sessions, seminars, and tutorials: Attitude scale (to gather opinions, values, social and managerial skills, interaction behaviors).
R2, R4	50,00%	Written tests: Objective tests with short and extended responses.
R2, R4	30,00%	Projects. Development and/or design works.

Observations

The evaluation includes several well-differentiated instruments. Passing the subject implies obtaining a final grade equal to or higher than 5/10, provided that the final written test grade is also equal to or higher than 5/10. The final test will combine a theoretical dimension (assessed by multiple-choice test and/or short-answer questions) and another practical one (text correction, production or equivalent). You will need to pass the different parts of the test in order to pass it. All assignments will have a specific execution and delivery date, which must be respected in order to pass the subject. During the course, students must read at least one books. This reading will be assessed through an oral presentation or a written test. The students will be able to choose the books they will read from a list that will be provided by the teachers on the first day of the course. In order to pass the subject, it is necessary to demonstrate an advanced linguistic command (level C1 of the MCER) in all oral and written productions. Criteria for awarding Honors Enrollments: Those students who obtain the best results from a 9.2. Only one Honor Roll may be placed for every 20 students and this will be subject to spelling and grammar correction and the discretionary consideration confirmed by the teacher who signs the minutes.

CRITERIA FOR THE AWARDING OF HONOURS:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with 9 Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
