Year 2024/2025

343603 - Clinical practice of specialities IV (infectious/nervous system/nephrology)

# Information about the subject

Degree: Bachelor of Science Degree in Medicine

Faculty: Faculty of Medicine and Health Sciences

Code: 343603 Name: Clinical practice of specialities IV (infectious/nervous system/nephrology)

Credits: 6,00 ECTS Year: 6 Semester: 1/2

Module: Supervised work and final project

Subject Matter: Clinical practice Type: Internship

Field of knowledge: Ciencias de la Salud

**Department: Medical Specialities** 

Type of learning: Classroom-based learning

Languages in which it is taught: Spanish

Lecturer/-s:

346A Inmaculada Martinez Fauli (Profesor responsable)

Carmen Hernandez Nuñez

Joaquin Andani Cervera

346B Inmaculada Martinez Fauli (Profesor responsable)

#### Year 2024/2025

343603 - Clinical practice of specialities IV (infectious/nervous system/nephrology)

| Clinical practice |       | Geriatric clinical practice | 3,00  | 6/2 |
|-------------------|-------|-----------------------------|-------|-----|
| Final project     | 12,00 | Bachelor's Thesis           | 12,00 | 6/2 |

# Recommended knowledge

Prerequisites: Have passed the entire module I GENERAL OBJECTIVES

In this subject, it is intended that the Medicine student reaches practical knowledge and understanding of the most important processes that involve the nervous, nephrourological systems and infectious pathology and that they be able to:

- 1. Recognize, diagnose and guide the management of the main pathologies
- 2. Know the major syndromes and pathologies of the mentioned areas
- 3. Solve diagnostic and treatment problems within the aforementioned areas
- 4. Focus and solve clinical cases where the aforementioned areas are involved
- 5. Know the main diagnostic techniques in relation to them

## \_earning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

R1 Pre-professional practices, in the form of an independent clinical rotary and with a final competency assessment, in health centers, hospitalsand other centres that incorporate professional values, care communication skills, clinical reasoning, clinical management and critical judgment, as well as attention to the most prevalent health problems in the areas of Medicine, Surgery, Obstetrics and Gynecology, Pediatrics, Psychiatry and other clinical areas

# Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

| ASIC |                                                                                                                                                                                                                                                                                                                                    | Weighting |   |   | 3 |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|---|---|---|
|      |                                                                                                                                                                                                                                                                                                                                    | 1         | 2 | 3 | 4 |
| CB1  | Students have demonstrated to possess and understand knowledge<br>in a study area that starts from the base of the general secondary<br>education, and is usually found at a level that, while supported by<br>advanced textbooks, also includes some aspects that involve<br>knowledge from the forefront of their field of study |           |   |   | x |
| CB2  | Students know how to apply their knowledge to their job or vocation<br>in a professional way and possess the competences that are usually<br>demonstrated through the elaboration and defense of arguments and<br>the resolution of problems within their area of ??study                                                          |           |   |   | X |
| CB3  | Students have the ability to collect and interpret relevant data (usually within their area of study) to make judgments that include a reflection on relevant social, scientific or ethical topics                                                                                                                                 |           |   |   | X |
| CB4  | Students can pass on information, ideas, problems and solutions to both a specialized and non-specialized audience                                                                                                                                                                                                                 |           |   |   | X |
| CB5  | Students have developed the learning skills needed to undertake further studies with a high degree of autonomy                                                                                                                                                                                                                     |           |   |   | x |

| GENEF | ENERAL                                                                                                                                                               |       | Weighting |  |  |  |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-----------|--|--|--|
|       |                                                                                                                                                                      | 1 2 3 | 4         |  |  |  |
| CG1   | Recognizing the essential elements of the medical profession,<br>including ethical principles, legal responsibilities, and<br>patient-centered professional exercise |       | x         |  |  |  |
| CG2   | Understanding the importance of such principles for the benefit of the patient, society and profession, with special attention to professional secrecy               |       | x         |  |  |  |
| CG3   | Knowing how to apply the principle of social justice to professional practice and understanding the ethical implications of health in a changing global context      |       | x         |  |  |  |

| Developing professional practice with respect to patient autonomy,<br>beliefs and culture                                                                                                                                                 |                                                                             |
| Understanding the basis of action, indications and efficacy of therapeutic interventions, based on available scientific evidence                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | # Assessment system for the acquisition of competencies and grading system

| Assessed learning outcomes | Granted percentage | Assessment method |
|----------------------------|--------------------|-------------------|
| R1                         | 30,00%             | Practices         |
| R1                         | 60,00%             | Simulations, ECOE |
| R1                         | 10,00%             | Practice exam     |

#### Observations

Requirements to pass the course

The student must pass all the following criteria to pass the course:

Attendance at practices must be 100% of the assigned hours.

Minimum score of 50% in all the evaluation instruments: ECOE Test and TEST Test.Minimum score of 50% in all the evaluation instruments.Presentation of the Report of external academic practices in the established term.

Minimum requirements:

You cannot take any subject in module 3 (Human Clinical Training) without having passed all the subjects in module 1 (Morphology, Structure and Function of the Human Body).

Criteria for awarding honors:

Honors may be awarded to the best students, who must have obtained a minimum grade of 9. If circumstances require it, a special test may be established to determine those students deserving of honors, taking into account the limitation of the 5% of the enrolled students. In second and subsequent calls, only the honors that could subtract after the first call may be granted.

#### **MENTION OF DISTINCTION:**

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

## Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

| M2  | Problems resolution and practical cases                          |
|-----|------------------------------------------------------------------|
| M11 | Personalised attention by professor                              |
| M12 | Tests to understand the level of knowledge acquirance and skills |
| M14 | Online activity on e-learning                                    |
| M15 | Personal study                                                   |
| M21 | Supervision of clinical histories                                |
| M22 | Clinical practices                                               |

## **IN-CLASS LEARNING ACTIVITIES**

|                                           | LEARNING OUTCOMES | HOURS  | ECTS |
|-------------------------------------------|-------------------|--------|------|
| Practices in small groups<br>M2, M21, M22 | R1                | 129,17 | 5,17 |
| Tutoring<br>M11                           | R1                | 0,56   | 0,02 |
| Evaluation<br><sup>M12</sup>              | R1                | 0,83   | 0,03 |

# Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

## Situation 1: Teaching without limited capacity (when the number of enrolled

#### students is lower than the allowed capacity in classroom, according to the security

#### measures taken).

In this case, no changes are made in the guide of the subject.

#### Situation 2: Teaching with limited capacity (when the number of enrolled

#### students is higher than the allowed capacity in classroom, according to the security

#### measures taken).

In this case, the following changes are made:

## 1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

Microsoft Teams

Kaltura

## Situation 3: Confinement due to a new State of Alarm.

In this case, the following changes are made:

## 1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

**Microsoft Teams** 

Kaltura

Explanation about the practical sessions:

15 clinical sessions will be held for those students who have not completed their practical rotary.

From the UCV Virtual Hospital and the ECOE Coordination, teaching and audiovisual material will be provided to the professors in charge of the subject for the delivery of clinical sessions.

The duration of the session will be four hours according to the following schedule for each clinical case:

- 1. Present the learning objectives (15 minutes).
- 2. Visualize the clinical case by the students and personal reflection, (30 minutes).
- 3. Reflective debate (Debriefing), coordinated by simulation instructors and the teacher

responsible for the session (45 minutes).

CLINICAL SIMULATION

Practical sessions will also be held at the Virtual Hospital, using clinical simulation techniques.

# 2. System for Assessing the Acquisition of the competences and Assessment System

**ONSITE WORK** 

#### **Regarding the Assessment Tools:**

Х

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

The following changes will be made to adapt the subject's assessment to the online teaching.

| Course guide    |                      | Adaptation                           |                        |  |
|-----------------|----------------------|--------------------------------------|------------------------|--|
| Assessment tool | Allocated percentage | Description of the suggested changes | Platform to be<br>used |  |

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

#### Comments to the Assessment System:

In case of taking the ECOE test electronically, it will be adapted to a digital environment that guarantees to evaluate the competences acquired in the subject.
