

Information about the subject

Degree: Bachelor of Science Degree in Human Nutrition and Dietetics

Faculty: Faculty of Medicine and Health Sciences

Code: 1311106 **Name:** Physiology

Credits: 6,00 **ECTS Year:** 1 **Semester:** 2

Module: Basic Sciences Module

Subject Matter: Fisiología **Type:** Basic Formation

Department: Anatomy and Physiology

Type of learning: Classroom-based learning

Languages in which it is taught: Spanish

Lecturer/-s:

131A

Estephany Carol Tapia Veloz (**Responsible Lecturer**)

Module organization

Basic Sciences Module

Subject Matter	ECTS	Subject	ECTS	Year/semester
Biología	6,00	Biology and Genetics	6,00	1/1
Bioquímica	6,00	Biochemistry	6,00	1/2
Química	12,00	Basic Fundamentals of Chemistry	6,00	1/1
		Organic Chemistry	6,00	1/2
Fisiología	12,00	Physiology	6,00	1/2
Estadística	6,00	Biostatistics	6,00	1/1
Anatomía Humana	6,00	Human Anatomy	6,00	1/1
Antropología	12,00	Anthropology	6,00	1/1
Microbiología	6,00	Microbiology and Parasitology	6,00	1/2
Inglés	6,00	English	6,00	1/2

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes

Granted
percentage

Assessment method

Observations

MENTION OF DISTINCTION:

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded. Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Group preparation of readings, essays, problem-solving, seminars, papers, reports, etc... for discussion or submission
- M2 Group preparation of readings, essays, problem-solving, seminars, papers, reports, etc... for discussion or submission
- M3 Personalized attention in small groups. A period of instruction and/or guidance provided by a tutor to review and discuss the materials and topics presented in classes, seminars, readings, assignments, etc. Student attendance and their gradual progress in understanding the subjects will be evaluated.

- M4 Application and sharing of multidisciplinary knowledge. This involves solving a problem that, in subsequent professional practice, would require the application of skills acquired through the modules and that will generate synergies in the assimilation of transversal and specific competencies. Group work skills will be specifically assessed.
- M5 Student study: individual preparation of readings, essays, problem solving, seminars, papers, memoirs, etc. for discussion or submission in electronic format.
- M6 Monographic sessions throughout the course, focused on current aspects and applications of the subject.
- M7 Individual or group work sessions in groups supervised by the teacher, which take place in spaces with specialized equipment.
- M9 The teacher will present the content, analyze competencies, and explain and demonstrate skills, abilities, and knowledge in the classroom.
The whiteboard, computer, and projector will be used to display texts, graphics, etc.
