

Information about the subject

Degree: Bachelor of Science Degree in Psychology

Faculty: Faculty of Psychology

Code: 290302 **Name:** Assessment and Diagnosis II

Credits: 6,00 **ECTS Year:** 3 **Semester:** 1

Module: PSYCHOLOGICAL EVALUATION

Subject Matter: EVALUATION AND DIAGNOSIS **Type:** Compulsory

Field of knowledge: Health Sciences

Department: -

Type of learning: Classroom-based learning / Online

Languages in which it is taught: Spanish

Lecturer/-s:

Module organization

PSYCHOLOGICAL EVALUATION

Subject Matter	ECTS	Subject	ECTS	Year/semester
EVALUATION AND DIAGNOSIS	12,00	Assessment and Diagnosis I	6,00	2/1
		Assessment and Diagnosis II	6,00	3/1

Recommended knowledge

There are no prerequisites. However, it is recommended to have previously studied the module Evaluation and Diagnosis I.

Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 Knowing how to analyze and interpret the results of an evaluation and creating oral or written reports following deontological obligations.
- R2 Being able to work in a team and considering the interdisciplinary approach in the psychological evaluation processes.
- R3 Knowing the different instruments of psychological evaluation applied to areas of clinical, personality psychology, school psychology, human resources psychology and neuropsychology.
- R4 Being able to select and use the adequate instruments for the psychological evaluation in different areas (personality psychology, clinical and health psychology, and neuropsychology).

Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

SPECIFIC	Weighting			
	1	2	3	4
CE4 Analyzing and measuring variables (personality, intelligence and other aptitudes) and cognitive, emotional, psychobiological and behavioral processes .				X
CE5 Identifying differences, problems and needs.			X	
CE6 Diagnosing following professional principles.				X
CE7 Analyzing and assessing interaction processes, group dynamics and group and inter-group structures.	X			
CE8 Identifying group and inter-group problems and needs.			X	
CE9 Analyzing and assessing interaction processes, organizational and inter-organizational dynamics and structure.	X			
CE10 Identifying organizational and inter-organizational problems and needs.			X	
CE24 Analyzing and interpreting assessment results.				X
CE26 Writing oral and written reports.				X
CE27 Knowing and adapting to the psychology code of ethics.				X
CE34 To know different evaluation methods, psychological diagnoses and treatments in different applied domains of Psychology .				X
TRANSVERSAL	Weighting			
	1	2	3	4
CT1 Capacity to analyze and synthesize.				X

CT2	Capacity to organize and plan.				X
CT7	Problem solving.				X
CT8	Decision making.				X
CT10	Capacity to work in interdisciplinary teams.	X			

Assessment system for the acquisition of competencies and grading system

In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4	50,00%	Oral and/or written tests employed in initial, training and/or summative student assessment.
R1, R2, R3, R4	35,00%	Presentation of practical activities.
R1, R2, R3, R4	15,00%	Attendance and active participation: lessons, group assignments and tutoring sessions. It will be monitored and registered by the teacher.

Observations

Attendance monitoring records by the teacher: the student must attend 80% of the sessions to be evaluated on the subject.

Practices will not be collected outside the established deadline and through the medium indicated by the teacher (platform, printed in hand).

Failure to deliver within the established deadline and format (e.g. via platform on a specific date) will result in the evaluation of said practice as not submitted. Practices via e-mail will not be accepted.

Some of the practices can only be delivered if the student has attended class on the dates on which it was worked in the classroom.

A role-playing practice will be carried out in the Gessell room that will be mandatory to pass the subject.

The student may present the practices not delivered or suspended in the next call (February).

Continuous evaluation will be carried out by delivering a practice per subject topic and a final theoretical-practical test on an official date.

Those students who have justified non-attendance at the sessions will take a single oral or written theoretical-practical test on an official date.

To pass the subject, the student must separately pass the different evaluation systems (attendance and active participation, practices and exam).

The final grade (once the pass is obtained in each of the parts) will be obtained by adding all the grades. If you do not obtain approval – in all the parts evaluated – the grade that will appear in the “minutes” will be a weighted grade of less than five.

The criterion for granting Honor Certificates is “Evidence levels of excellence in all skills and learning outcomes” and having a grade higher than 9.5.

Online teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4	75,00%	Final evaluation consisting of essay questions and hypothetical scenarios.
R1, R2, R3, R4	5,00%	Submitted tasks
R1, R2, R3, R4	0,00%	Periodical assessment through questionnaires
R1, R2, R3, R4	20,00%	Attendance and participation in synchronic communication activities.

Observations

In order to pass the course the student will have to pass separately the final evaluation (minimum 3.75 points) and the presentation of the different practices (minimum 1 point). The mark obtained in the approved part (theoretical or practical) will be saved for the second call.

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.

Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Teacher presentation of contents, competency analysis, explanation and demonstration of capacities, abilities and knowledge in the classroom (presential modality).

- M2 Teacher-supervised groupwork sessions: case studies, diagnostic tests, problems, fieldwork, IT room, visits, data searches, libraries, web, Internet, etc. Building knowledge significantly through interaction and student activities (presential modality).
- M3 Supervised monographic sessions with shared participation.
- M4 Application of interdisciplinary knowledge.
- M5 Activities developed in spaces with specialized equipment.
- M6 Personalized attention in small groups. Training and/or orientation period by a teacher aimed at revising and discussing the materials and topics presented in the lessons, seminars, lectures, assignments, etc.
- M7 Set of oral and/or written tests employed in initial, training or summative assessment of the student.
- M8 Group preparation of readings, essays, problem resolution, seminars, assignments, reports, etc. to be presented or handed in during theory lessons, practical lessons and/or tutoring sessions in small groups. Tasks done on the platform or other virtual spaces.
- M9 Students' independent study: individual preparation of readings, essays, problem resolution, seminars, assignments, reports, etc. to be presented or handed in during theory lessons, practical lessons and /or small-group tutoring sessions. Tasks on the platform or other virtual spaces.

IN-CLASS LEARNING

IN-CLASS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
ON-CAMPUS CLASS Teacher presentation of contents, analysis of competences, explanation and in-class display of skills, abilities and knowledge. M1	R1, R2, R3	25,00	1,00
PRACTICAL CLASSES Group work sessions supervised by the professor. Case studies, diagnostic tests, problems, field work, computer room, visits, data search, libraries, on-line, Internet, etc. Meaningful construction of knowledge through interaction and student activity. M2	R2, R3, R4	25,00	1,00
OFFICE ASSISTANCE Personalized and small group attention. Period of instruction and/or orientation carried out by a tutor to review and discuss materials and topics presented in classes, seminars, papers, etc. M6	R1, R2, R3, R4	7,50	0,30
ASSESSMENT Set of oral and/or written tests used in initial, formative or additive assessment of the student. M7	R1, R3, R4	2,50	0,10
TOTAL		60,00	2,40

LEARNING ACTIVITIES OF AUTONOMOUS WORK

	LEARNING OUTCOMES	HOURS	ECTS
GROUP WORK Group preparation of readings, essays, problem solving, seminars, papers, reports, etc. to be presented or submitted in theoretical lectures, practical and/or small-group tutoring sessions. Work done on the university e-learning platform M8	R1, R2, R3, R4	40,00	1,60
INDEPENDENT WORK Student study: Individual preparation of readings, essays, problem solving, seminars, papers, reports, etc. to be presented or submitted in theoretical lectures, practical and/or small-group tutoring sessions. Work done on the university e-learning platform. M9	R1, R3, R4	50,00	2,00
TOTAL		90,00	3,60

ON-LINE LEARNING

SYNCHRONOUS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
Virtual session (distance learning) M1	R1, R2, R3	25,00	1,00
Virtual practical session (distance learning) M2	R1, R2, R3, R4	12,50	0,50
Seminar and virtual videoconference (distance learning) M3	R1, R2, R3	6,25	0,25
In-person or virtual assessment (distance learning) M7	R1, R2, R3, R4	2,50	0,10
Individual tutoring sessions (distance learning) M6	R1, R2, R3, R4	7,50	0,30
Discussion forums (distance learning) M8	R1, R2, R3, R4	2,50	0,10
Continuous assessment activities (distance learning) M7	R1, R2, R3, R4	3,75	0,15
TOTAL		60,00	2,40

ASYNCHRONOUS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
Individual work activities (distance learning) M9	R1, R2, R3, R4	50,00	2,00
Teamwork (distance learning) M8	R1, R2, R3, R4	40,00	1,60
TOTAL		90,00	3,60

Description of the contents

Description of the necessary contents to acquire the learning outcomes.

Theoretical contents:

Content block	Contents
1. Evaluation of personality traits:	· Concept and approach to personality theories · Personality tests: types and instruments
2. Evaluation of stylistic characteristics of the personality	· Cognitive styles · Personal Aspects · Environmental aspects · Mediation processes in the interaction
3. Evaluation of abnormal behavior	· Classification and diagnostic criteria · Evaluation of psychopathology
4. Evaluation in health psychology	· Evaluation in chronic diseases

Temporary organization of learning:

Block of content	Number of sessions	Hours
1. Evaluation of personality traits:	10,00	20,00
2. Evaluation of stylistic characteristics of the personality	6,00	12,00
3. Evaluation of abnormal behavior	10,00	20,00
4. Evaluation in health psychology	4,00	8,00
