## Assessment system for the acquisition of competencies and grading system

### In-class teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4	60,00%	Oral and/or written tests employed in initial, training and/or summative student assessment.
R1, R2, R3, R4, R6	20,00%	Attendance and active participation: lessons, group assignments and tutoring sessions. It will be monitored and registered by the teacher.
R1, R2, R3, R4, R6	10,00%	Oral presentation of assignments.
R1, R2, R3, R4, R6	10,00%	Group assignments.

### Observations

#### CRITERIA TO AWARD THE MENTION OF DISTINCTION:

Better results from 9.5 in the final grade, and show levels of excellence in practical activities, as well as in attendance and active participation in class.

According to the general normative, only one Distinction may be granted to a student in a course of 20 students, not on the grounds of a fraction of 20, unless the number of students enrolled is under 20 in which case only one Distinction may be granted.

#### OTHER RELEVANT ASPECTS ABOUT ASSESSMENT:

The final exam will consist of an objective multiple choice test.

In order to pass the course, the student must pass the different evaluation systems separately (attendance and active participation, group work and written tests).

### Online teaching

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4	75,00%	Final evaluation consisting of essay questions and hypothetical scenarios.
R1, R2, R3, R4, R6	5,00%	Submitted tasks
	0,00%	Periodical assessment through questionnaires

R1, R2, R3, R4

20,00%

Attendance and participation in synchronic communication activities.

In order to pass the course, the student must pass the different evaluation systems separately (attendance and active participation, group work and written tests).

In accordance with the regulations governing the assessment and grading of subjects in force at UCV, the distinction of "Matrícula de Honor" (Honours with Distinction) may be awarded to students who have achieved a grade of 9.0 or higher. The number of "Matrículas de Honor" (Honours with Distinction) may not exceed five percent of the students enrolled in the group for the corresponding academic year, unless the number of enrolled students is fewer than 20, in which case a single "Matrícula de Honor" (Honours with Distinction) may be awarded.

Exceptionally, these distinctions may be assigned globally across different groups of the same subject. Nevertheless, the total number of distinctions awarded will be the same as if they were assigned by group, but they may be distributed among all students based on a common criterion, regardless of the group to which they belong. The criteria for awarding "Matrícula de Honor" (Honours with Distinction) will be determined according to the guidelines stipulated by the professor responsible for the course, as detailed in the "Observations" section of the evaluation system in the course guide.
