

## Information about the subject

**Degree:** Official Master's Degree in General Health Psychology

**Faculty:** Faculty of Psychology

**Code:** 1430019 **Name:** Promotion and Intervention in Health Psychology

**Credits:** 6,00 **ECTS** **Year:** 1 **Semester:** 2

**Module:** Specific module: Evaluation, diagnosis and intervention in health psychology.

**Subject Matter:** XI. HEALTH PSYCHOLOGY PROMOTION AND INTERVENTION **Type:**

Compulsory

**Department:**

**Type of learning:** Classroom-based learning

**Languages in which it is taught:** Spanish

**Lecturer/-s:**

## Module organization

### Specific module: Evaluation, diagnosis and intervention in health

| Subject Matter  | ECTS | Subject   | ECTS | Year/semester |
|---|------|---|------|---------------|
| VI.<br>PSYCHOPATHOLOGY OF PHYSIOLOGICAL FUNCTIONS                       | 6,00 | Psychopathology of Physiological Functions                                  | 6,00 | 1/1           |
| VIII.<br>PSYCHOPATHOLOGY AND FAMILY THERAPY                             | 3,00 | Psychopathology and Family Therapy  | 3,00 | 1/2           |
| VII. PERSONALITY AND HEALTH   | 3,00 | Personality and Health  | 3,00 | 1/2           |
| IV. EVALUATION, DIAGNOSIS AND INTERVENTION FOR CHILDREN AND ADOLESCENTS | 9,00 | Assessment, Diagnosis and Intervention in Children and Adolescents          | 9,00 | 1/1           |
| V. EVALUATION OF AND INTERVENTION IN ANXIETY AND DEPRESSIVE DISORDERS   | 6,00 | Assessment, Diagnosis, and Intervention in Anxiety and Depressive Disorders | 6,00 | 1/1           |
| IX. EVALUATION, DIAGNOSIS AND INTERVENTION IN SEVERE MENTAL DISORDERS   | 3,00 | Assessment, Diagnosis and Intervention in Severe Mental Disorder            | 3,00 | 1/2           |
| X. CLINICAL NEUROPSYCHOLOGY   | 3,00 | Clinical Neuropsychology  | 3,00 | 1/2           |

Year 2023/2024

1430019 - Promotion and Intervention in Health Psychology

|  |      |   |      |     |
|--|------|---|------|-----|
| XI. HEALTH PSYCHOLOGY PROMOTION AND INTERVENTION | 6,00 | Promotion and Intervention in Health Psychology | 6,00 | 1/2 |
|--|------|---|------|-----|

## Recommended knowledge

No required.

## Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 The ability to use clinical information sources, using information technology.
- R2 Command of the necessary interpersonal communication and emotion management skills in the context of health psychology.
- R3 The ability to properly conduct or supervise the psychological evaluation process in the context of health prevention and intervention in a disease context.
- R4 The ability to design, implement, monitor and evaluate psychological intervention programs in the context of health and illness.

## Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

| GENERAL   | Weighting |   |   |   |
|---|-----------|---|---|---|
|   | 1         | 2 | 3 | 4 |
| CG8 Ability to develop and remain updated on the competences, knowledge and skills according to the standards of the profession.  |           |   |   | X |
| SPECIFIC  | Weighting |   |   |   |
|   | 1         | 2 | 3 | 4 |
| CE3 To show interpersonal communication skills and appropriate emotional management for an effective interaction with patients, families and caregivers during the process of problem identification, evaluation, and when communicating the psychological diagnosis, intervention and follow up plans. |           |   |   | X |
| CE17 Plan, implement and, when appropriate, monitor the process of psychological evaluation of human behavior and psychological factors associated with health problems to establish the evaluation of them.  |           |   |   | X |
| CE18 To design, develop and evaluate the appropriate plans and programs of psychological intervention, depending on the psychological assessment and individual and social variables competing in each case.  |           |   |   | X |
| CE21 Undertaking activities of education and health promotion for individuals and communities in relation to psychological health.  |           |   |   | X |

## Assessment system for the acquisition of competencies and grading system

| Assessed learning outcomes | Granted percentage | Assessment method   |
|----------------------------|--------------------|---|
| R2, R3, R4                 | 60,00%             | Evaluation through objective multiple-choice test(s) or essay tests.  |
| R1, R2, R3, R4             | 30,00%             | Delivery of practical activities (problem solving, case studies, diagnostic analyses, etc.) at the end of each session or by the time stipulated by the professor via the platform. |
| R1, R2                     | 10,00%             | Positive attendance and active participation in class and/or tutorials: Attendance and intervention in class or tutorials with a positive and active attitude.                      |

### Observations

The completion of internships will be mandatory to pass the course. As well as the attendance to 70% of the classes.

## Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M1 Presentation of contents by the professor, analysis of competencies, explanation and demonstration of abilities, skills and knowledge in the classroom.
- M2 Group work sessions supervised by the professor. Case studies, diagnostic analyses, problems, field study. Significant construction of knowledge through student interaction and activity.
- M3 Supervised monographic sessions with shared participation.
- M4 Written test, delivery of synthesis and research work on the contents learned in the sessions.

Year 2023/2024

1430019 - Promotion and Intervention in Health Psychology

- M5 Group preparation of readings, essays, problem solving, seminars, papers, reports, etc. to be presented or delivered in theory classes, practical classes and/or small group tutorials. Work done on the platform or other virtual spaces.
- M6 Individual preparation of readings, essays, problem solving, seminars, papers, reports, etc. to be presented or delivered in theory classes, practical classes and/or small group tutorials. Work done on the platform or other virtual spaces.

#### IN-CLASS LEARNING ACTIVITIES

|                                 | LEARNING OUTCOMES | HOURS        | ECTS        |
|---------------------------------|-------------------|--------------|-------------|
| IN-PERSON CLASS<br>M1, M2, M3   | R1, R2, R3        | 30,00        | 1,20        |
| PRACTICAL CLASSES<br>M2, M3, M5 | R1, R2, R3        | 24,00        | 0,96        |
| EVALUATION<br>M4                | R1, R2, R3        | 2,00         | 0,08        |
| TUTORIALS<br>M1                 | R2                | 4,00         | 0,16        |
| <b>TOTAL</b>                    |                   | <b>60,00</b> | <b>2,40</b> |

#### LEARNING ACTIVITIES OF AUTONOMOUS WORK

|                           | LEARNING OUTCOMES | HOURS        | ECTS        |
|---------------------------|-------------------|--------------|-------------|
| INDIVIDUAL WORK<br>M5, M6 | R1, R2, R3, R4    | 90,00        | 3,60        |
| <b>TOTAL</b>              |                   | <b>90,00</b> | <b>3,60</b> |

## Description of the contents

Description of the necessary contents to acquire the learning outcomes.

### Theoretical contents:

| Content block   | Contents   |
|---|--|
| 1. Intervention Programs in Psycho-oncology.          | Psychological Adjuvant Therapy, Mindfulness, cognitive-behavioral therapies, coping, psychotherapy programs based in positive psychology, etc. |
| 2. Intervention with the family.                      | Bereavement  |
| 3. Palliative care                                    | Interventions with palliative care patients  |
| 4. Intervention programs in drug and other addictions | 4. Intervention programs in drug and other addictions (addition to new technologies, sexting, sex addition, and so on)                         |
| 5. Intervention program in chronic pathologies        | different intervention programs in different chronic medical pathologies and health promotion  |

Year 2023/2024

1430019 - Promotion and Intervention in Health Psychology

Temporary organization of learning:

| Block of content                                      | Number of sessions | Hours |
|---|--------------------|-------|
| 1. Intervention Programs in Psycho-oncology.          | 5,00               | 10,00 |
| 2. Intervention with the family.                      | 5,00               | 10,00 |
| 3. Palliative care                                    | 5,00               | 10,00 |
| 4. Intervention programs in drug and other addictions | 8,00               | 16,00 |
| 5. Intervention program in chronic pathologies        | 7,00               | 14,00 |

## Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

**Situation 1: Teaching without limited capacity (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).**

In this case, no changes are made in the guide of the subject.

**Situation 2: Teaching with limited capacity (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).**

In this case, the following changes are made:

### 1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

Microsoft Teams

Kaltura

### **Situation 3: Confinement due to a new State of Alarm.**

In this case, the following changes are made:

#### **1. Educational Activities of Onsite Work:**

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

- Microsoft Teams
- Kaltura

Explanation about the practical sessions:

## 2. System for Assessing the Acquisition of the competences and Assessment System

### ONSITE WORK

#### Regarding the Assessment Tools:

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

The following changes will be made to adapt the subject's assessment to the online teaching.

| Course guide    |                      | Adaptation                           |                     |
|-----------------|----------------------|--------------------------------------|---------------------|
| Assessment tool | Allocated percentage | Description of the suggested changes | Platform to be used |
|                 |                      |                                      |                     |

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

#### Comments to the Assessment System:
