

## Information about the subject

**Degree:** Official Master's Degree in Marriage and Family Sciences

**Faculty:** Faculty of Philosophy, Letters and Humanities

**Code:** 1740016 **Name:** Master's Thesis

**Credits:** 6,00 **ECTS Year:** 1 **Semester:** 2

**Module:** Master's final work

**Subject Matter:** Final degree work **Type:** Final Degree Project

**Department:**

**Type of learning:** Blended

**Languages in which it is taught:** Spanish

**Lecturer/-s:**

MATRIM Enrique Estelles Arolas (**Responsible Lecturer**)

[enrique.estelles@ucv.es](mailto:enrique.estelles@ucv.es)

## Module organization

### Master's final work

Subject Matter	ECTS	Subject	ECTS	Year/semester
Final degree work	6,00	Master's Thesis	6,00	1/2

## Prerequisites

The final master's work will be on an original research topic related to the field of marriage and family. A tutor will be assigned  
doctoral lecturer of the master's degree to help students in their research work.

## Learning outcomes

At the end of the course, the student must be able to prove that he/she has acquired the following learning outcomes:

- R1 Be able to address a topic related to marriage and family from a multidisciplinary perspective
- R2 To be able to put into practice elements of research and application of concepts worked on in the master's degree
- R3 Deepen on a scientific level a relevant and original topic related to marriage or family
- R4 Be able to handle data, tools and sources
- R5 Be able to expose and defend in court what has been worked on in the final project

## Competencies

Depending on the learning outcomes, the competencies to which the subject contributes are (please score from 1 to 4, being 4 the highest score):

BASIC		Weighting			
		1	2	3	4
CB7	Students are able to apply their acquired knowledge and problem-solving skills in new or unfamiliar environments within broader (or multidisciplinary) contexts related to their area of study				X
CB8	Students should be able to integrate knowledge and deal with the complexity of making judgements on the basis of incomplete or limited information, including reflections on the social and ethical responsibilities linked to the application of their knowledge and judgements				X
CB9	Students should be able to communicate their findings and the ultimate knowledge and reasons behind them to specialist and non-specialist audiences in a clear and unambiguous manner				X

GENERAL		Weighting			
		1	2	3	4
CG1	Training on all the structural elements of marriage and the family that provides an integral vision of the person, marriage and the family from an interdisciplinary perspective				X
CG2	To instruct in a methodology that enables to interpret, educate and guide the essentially human experience in the conjugal and family environment from the equal dignity of men and women.			X	
CG3	Provide keys to understanding and personalized attention to the family in conflict situations.			X	
CG4	To know, analyze and understand the influence of marriage and family in the field of culture from the promotion of the values of a culture of peace, non-discrimination and equal opportunities.				X
CG5	To know, understand and deepen the proper anthropology of marriage and family				X

SPECIFIC	Weighting			
	1	2	3	4
CE20 To initiate the student in research work through the search and selection of scientific bibliography specialized in the field of marriage and family.				X
CE21 To promote the capacity of analysis, synthesis and writing in the elaboration of works and book reviews			X	

## Assessment system for the acquisition of competencies and grading system

Assessed learning outcomes	Granted percentage	Assessment method
R1, R2, R3, R4, R5	100,00%	Overall assessment of the Master's final project by the panel (originality of the project, quality of the project and oral defence)

### Observations

## Learning activities

The following methodologies will be used so that the students can achieve the learning outcomes of the subject:

- M2 Personalized attention and in small groups
- M5 written reflection about the contents worked on in class

## IN-CLASS LEARNING ACTIVITIES

	LEARNING OUTCOMES	HOURS	ECTS
Individual coaching M2	R1, R2, R3, R4, R5	50,00	2,00
<b>TOTAL</b>		<b>50,00</b>	<b>2,00</b>

## LEARNING ACTIVITIES OF AUTONOMOUS WORK

	LEARNING OUTCOMES	HOURS	ECTS
Autonomous work of the student M5	R1, R2, R3, R4, R5	100,00	4,00
<b>TOTAL</b>		<b>100,00</b>	<b>4,00</b>

## Description of the contents

Description of the necessary contents to acquire the learning outcomes.

Theoretical contents:

Content block	Contents
B.1	The Final Master's Paper will be on an original topic of research related to the field of marriage and family. A tutor will be assigned to the Master's doctoral students to help the student in his research task.

## Temporary organization of learning:

Block of content	Number of sessions	Hours
B.1	10,00	20,00

## Addendum to the Course Guide of the Subject

Due to the exceptional situation caused by the health crisis of the COVID-19 and taking into account the security measures related to the development of the educational activity in the Higher Education Institution teaching area, the following changes have been made in the guide of the subject to ensure that Students achieve their learning outcomes of the Subject.

**Situation 1: Teaching without limited capacity** (when the number of enrolled students is lower than the allowed capacity in classroom, according to the security measures taken).

In this case, no changes are made in the guide of the subject.

**Situation 2: Teaching with limited capacity** (when the number of enrolled students is higher than the allowed capacity in classroom, according to the security measures taken).

In this case, the following changes are made:

### 1. Educational Activities of Onsite Work:

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject will be made through a simultaneous teaching method combining onsite teaching in the classroom and synchronous online teaching. Students will be able to attend classes onsite or to attend them online through the telematic tools provided by the university (videoconferences). In any case, students who attend classes onsite and who attend them by videoconference will rotate periodically.

In the particular case of this subject, these videoconferences will be made through:

Microsoft Teams

Blackboard Collaborate Ultra

Kaltura

### **Situation 3: Confinement due to a new State of Alarm.**

In this case, the following changes are made:

#### **1. Educational Activities of Onsite Work:**

All the foreseen activities to be developed in the classroom as indicated in this field of the guide of the subject, as well as the group and personalized tutoring, will be done with the telematic tools provided by the University, through:

- Microsoft Teams
- Blackboard Collaborate Ultra
- Kaltura

Explanation about the practical sessions:

## 2. System for Assessing the Acquisition of the competences and Assessment System

### ONSITE WORK

#### Regarding the Assessment Tools:

The Assessment Tools will not be modified. If onsite assessment is not possible, it will be done online through the UCVnet Campus.

The following changes will be made to adapt the subject's assessment to the online teaching.

Course guide		Adaptation	
Assessment tool	Allocated percentage	Description of the suggested changes	Platform to be used

The other Assessment Tools will not be modified with regards to what is indicated in the Course Guide.

#### Comments to the Assessment System:
